

**DONATE
BLOOD**
IT'S ABOUT LIFE

THE BLOOD CENTER
OF NEW JERSEY

My Mommy's life was saved with lots of blood transfusions.* Please give blood.

Laura Housley, diagnosed with acute lymphoblastic leukemia in 2000, had a successful bone marrow transplant in 2002. Throughout her treatment, she needed over a hundred units of blood and platelets. She lives in Maplewood with her husband Ron, daughter Sara and her son Matthew.
